WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol. Scott & Bown, Bloomfield, N. J.

Hobson, and James Humphreys, son of Mrs. T. T. Humphreys. They have both been stationed on the Mexican border for some time and just what part their commands will take in the expedition into that country in search of Villa is not known here. Of course the present situation there causes a feeling of uneasiness to relatives here.

Hats are rather more "freaky" than last year, yet not so elaborate, while suits are rather the reverse, for they are particularly attractive in design and of beautiful material. Notwithstanding the claim that this country is short on certain color dyes, because they are made in some of the countries now at war, the colors in the cheaper dress goods especially are as pretty as one could wish for.

Men's and Boys' Clothing, Hats, Shoes and Furnishings

In this department, while materials have all advanced, "on account of the war," the makers have not sacrificed style and workmanship; and you will find these clothes all attractive and of the latest styles.

And in the matter of Shoes & Slippers

we are sure that the several makes we are offering are the very best to be had for both Style and Service.

We have a full line of Mattings. Also a car load of Furniture just arrived.

We had hoped to have the additional space by now, but can not get the store north of us yet awhile. Again extending to all an invitation to come and see our beautiful New Spring Stock, we are, Sincerely,
